

## Mill Liners and Discharge Systems Engineered for Performance

**Polycorp is a global supplier of Rubber and Rubber Steel Mill Liners and Discharge Systems for SAG/AG Mills, Rod Mills, Ball Mills, Scrubbers, and Mixing Drums.**

**Polycorp has supplied the mining industry with Mill Liner Systems since 1968.**

**Polycorp Mill Liners have demonstrated the following benefits from Ball Mills to Autogenous Grinding applications:**

- Reduced liner costs per tonne of material processed
- Longer lining life and fewer maintenance interruptions

**Compared to metal liners, additional benefits realized:**

- Faster and safer installations
- Lower operating noise
- Lining weight reductions by as much as 80%

Complete in-plant facilities ensure total control over the design and manufacture of the product from computer assisted application design to the rubber compound that is formulated and tested prior to molding. The result is a product whose quality has been proven in hundreds of installations worldwide to enhance efficiency and service at competitive costs.
